IMPORTANT INFORMATION

Read the Quick Start Guide before using this product and refer to the Warranty Guide for warranty and service information. If damage is caused by failure to follow any of the instructions or guidelines, the warranty does not apply.

CORSAIR HARPOON RGB WIRELESS Performance Wireless Gaming Mouse
Product Name and Model: Wireless Mouse/RGP0075
Product Name and Model: Wireless Dongle/RGP0066

For use only with NRTL listed end product and
Wireless Mouse Rating: 5V - 900mA Max.,
Wireless Dongle Rating: 5V - 80mA Max.

PRODUCT SAFETY GUIDELINES

- > Use this product in accordance with the Quick Start Guide and manufacturer instructions.
- > Charge this product only with the included USB charging/ data cable and a USB Type-A port on your PC.
- > Use and store this product in a room temperature controlled environment.
- > Clean this product only with a dry cloth.
- > Use this product only with manufacturer approved accessories.
- > Unplug this product when unused for a long period of time or during power-related events such as a power outage or lighting storm.
- > Refer this product to qualified service personnel in the event the included accessories have been damaged and/or do not function properly.
- > DO NOT cover, block any ventilation openings, or use this product in a confined space.
- > DO NOT use or store this product near heat sources or in direct sunlight.
- > DO NOT use near or expose this product to liquids, and power it off immediately if liquids come in contact.
- > DO NOT place this product on or near power cords or other electrical equipment.
- > DO NOT insert foreign objects into product openings.

BATTERY SAFETY GUIDELINES

- > This product has a non-user serviceable Li-Polymer battery.
- > DO NOT attempt to remove the battery.
- > DO NOT attempt to change the battery. Instead, contact CORSAIR Customer Support for repair or replacement information.
- > DO NOT dispose of this product in household waste bins.
- > CORSAIR MEMORY, Inc. encourages customers to recycle used electronic hardware and rechargeable batteries in accordance with local laws and regulations.

CAUTION:

The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user authority to operate the equipment.

WARNING:

Changes or modifications not expressly approved by CORSAIR MEMORY, Inc. could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- (1) Reorient or relocate the receiving antenna.
- (2) Increase the separation between the equipment and the receiver.
- (3) Connect the equipment into an outlet that is on a circuit different from that to which the receiver is connected.
- (4) Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

FCC ID: 2AAFMIGP0075 (Mouse)
FCC ID: 2AAFMIGP0066 (Dongle)

This product complies with the FCC portable RF exposure limit set forth for an uncontrolled environment and are safe for intended operation as described in this manual. The further RF exposure reduction can be achieved if the product can be kept as far as possible from the user body or set the device to lower output power if such function is available.

Frequency Band: 2.402 – 2.480 GHz

Transmit Power EIRP: <10 dBm

Operating Temperature: 0°C ~ + 40°C
